

Complete Healthcare
Storage Solutions

Complete Healthcare Storage Solutions

In today's healthcare environment many different types of storage solutions are utilised.

We have carefully selected an extensive range of systems to provide the most effective and efficient storage for all departments including static, built-in and mobile storage units. All systems can be customised with a range of accessories further enhancing functionality and efficiency.

1

Module 60 x 40 Systems

This versatile high density storage system offers infinite flexibility for storage requirements throughout the healthcare environment. By utilising the ISO standard 60 x 40cm tray and basket system numerous types of storage systems are offered.

- Free standing storage racks
- Enclosed cabinet systems
- Open frame storage carts
- Enclosed carts with roller doors or opening doors
- Carts with drawer systems

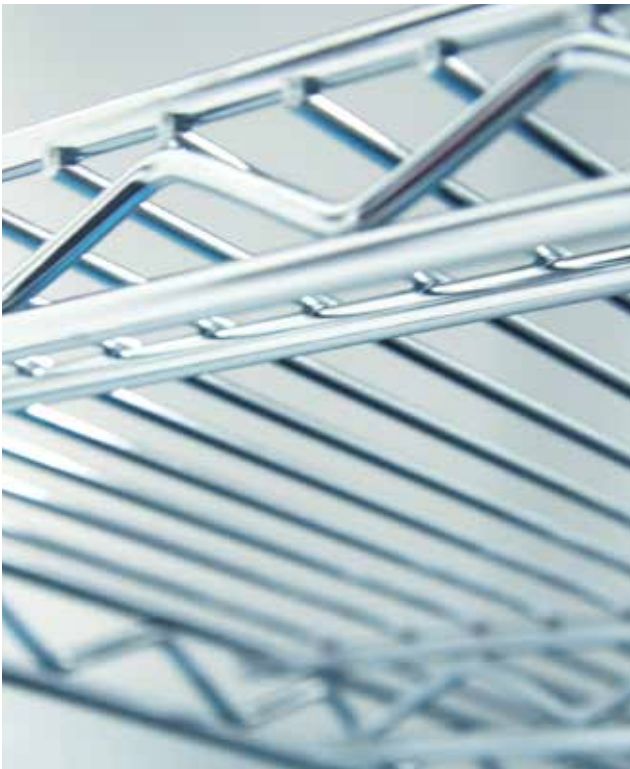

2

Rapini Wire Systems

An easy and economical system to solve a variety of storage solutions using wire shelves, and wire baskets. Static shelving can be custom fitted to room sizes and in-line systems can be fitted to maximise storage capacity. Our unique basket systems offer dust free storage of items and can be utilised in both carts and wall mounted systems.

- Free standing storage racks
- Open frame storage carts
- In-line storage systems
- Carts with basket systems
- Wall mounted basket systems

3

Pharmacy Shelving

Flexible shelving and storage systems provide optimal layout for the healthcare pharmacy. The pull-out shelving system maximises access to stock and improves work flow. The wire basket system provides bulk storage of items that can be integrated into cabinet and bench systems as well as free standing frames.

- Free standing shelf systems
- Enclosed cabinet shelf systems
- Free standing basket systems
- Enclosed cabinet basket systems

Trays & Baskets

The trays and baskets are the core of the Module 60 x 40. Each tray has an external dimension of 60 x 40cm which is a standard ISO size. This standard size offers significant flexibility in terms of how they can be utilised in free-standing, mobile and cabinet systems.

- The trays are designed to offer a solid base and are available in depths of 5, 10 and 20cm.
- The baskets have a perforated base and are available in depths of 10 and 20cm.
- Both the trays and baskets can be supplied in Transparent ABS (standard) or Light Grey ABS, and all have integrated moulded slots to accommodate divider systems.

Accessories

Divider Systems

All ABS tray and basket systems have integrated moulded slots to ensure positive positioning of the divider system. In addition they have unique numbers and letters marked on the trays to provide quick and precise positioning of the dividers. The dividers depths are matched to the trays: 5, 10, and 20cm deep.

Connector for Dividers TTT121005-12102

An optional T-connector can be used to create compartments of varying dimensions.

Drawer Stops

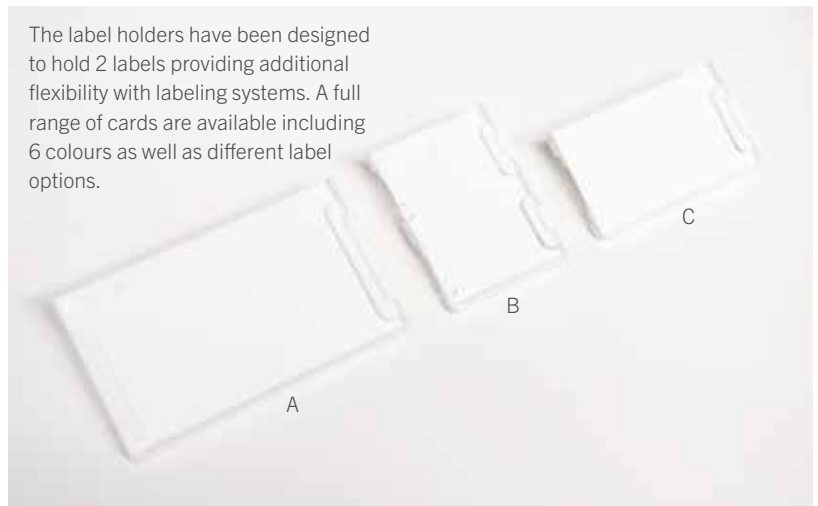

TTT121000-12102

Drawer stops can be fitted to trays and baskets. There is provision in each corner for these stops.

Label Holders

The label holders have been designed to hold 2 labels providing additional flexibility with labeling systems. A full range of cards are available including 6 colours as well as different label options.

Cabinet Liners

Complete flexibility for tray and basket storage.

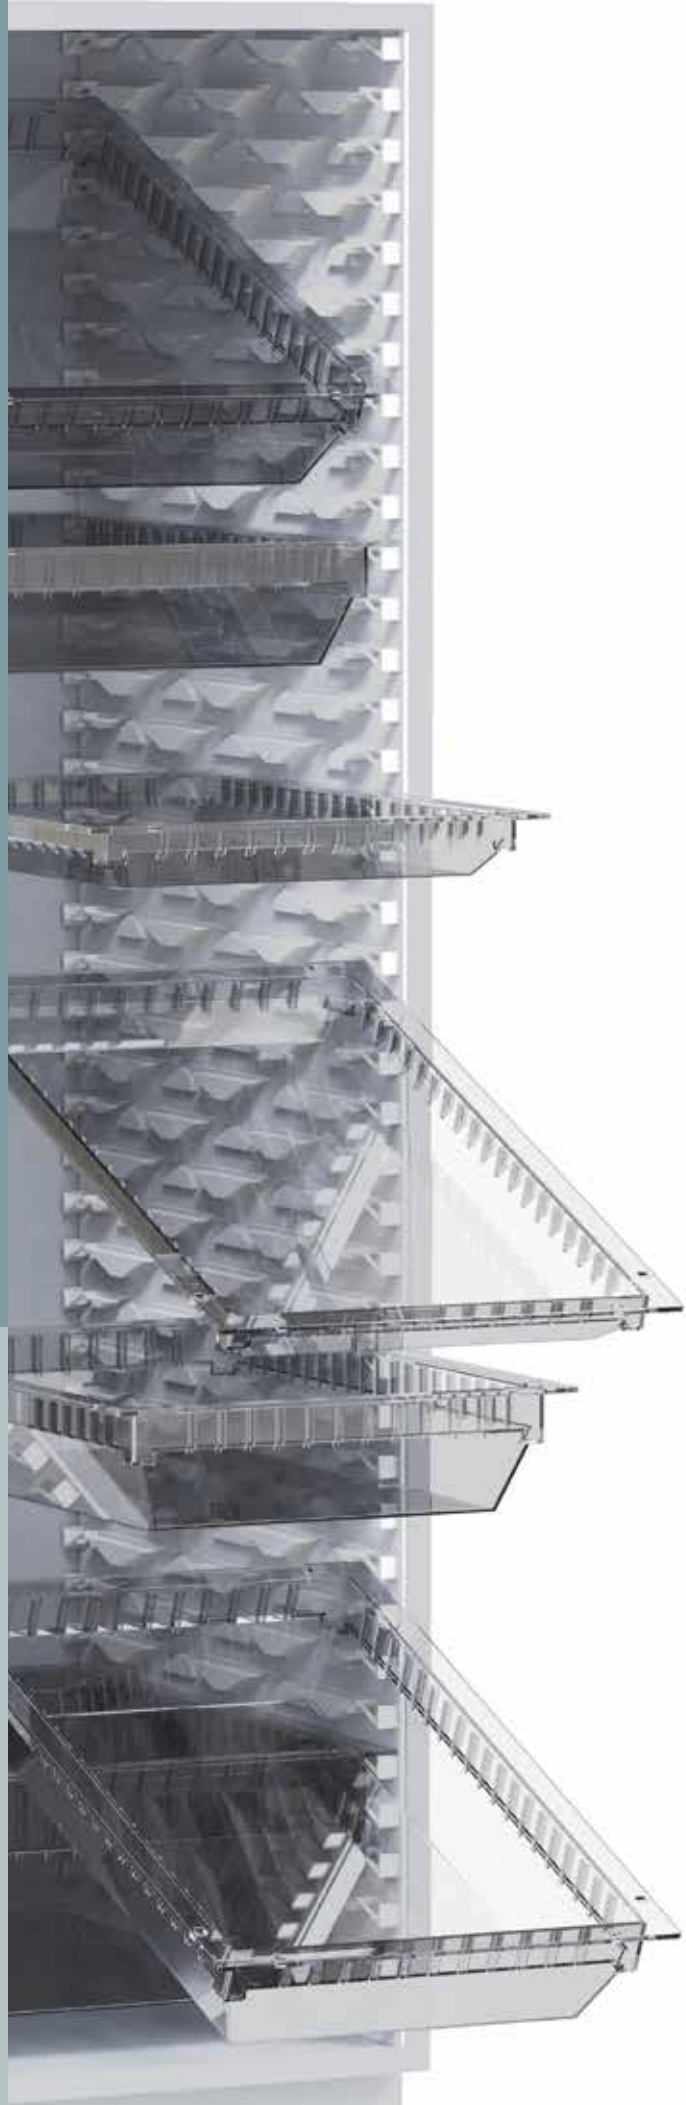

Positioning Options:

- Horizontal
- Slanted
- Tilted

All liners for the Module 60 x 40 system are injection moulded ABS and are extremely rigid and strong. The design of these panels enables trays and baskets to be used horizontally, stored on a slant or pulled out and tilted for ease of access.

Available Options:

- Safety stop system to prevent trays and baskets coming out entirely.
- Click in wheel system to ensure heavily loaded trays slide easily.

Cabinet Liners

There are different versions of the liner system to accommodate a 40cm or 60cm wide cabinet opening. The liners are modular and easily installed with each panel being 32cm high.

Cabinet Width	Left	Right
40cm	TTT127000-00003	TTT127000-00004
60cm	TTT127000-00001	TTT127000-00002

Wheels

TTT127000-00000

This unique click in wheel system can be attached to any liner panel without requiring any tools. This click in wheel system ensures that trays slide easily even when heavily loaded.

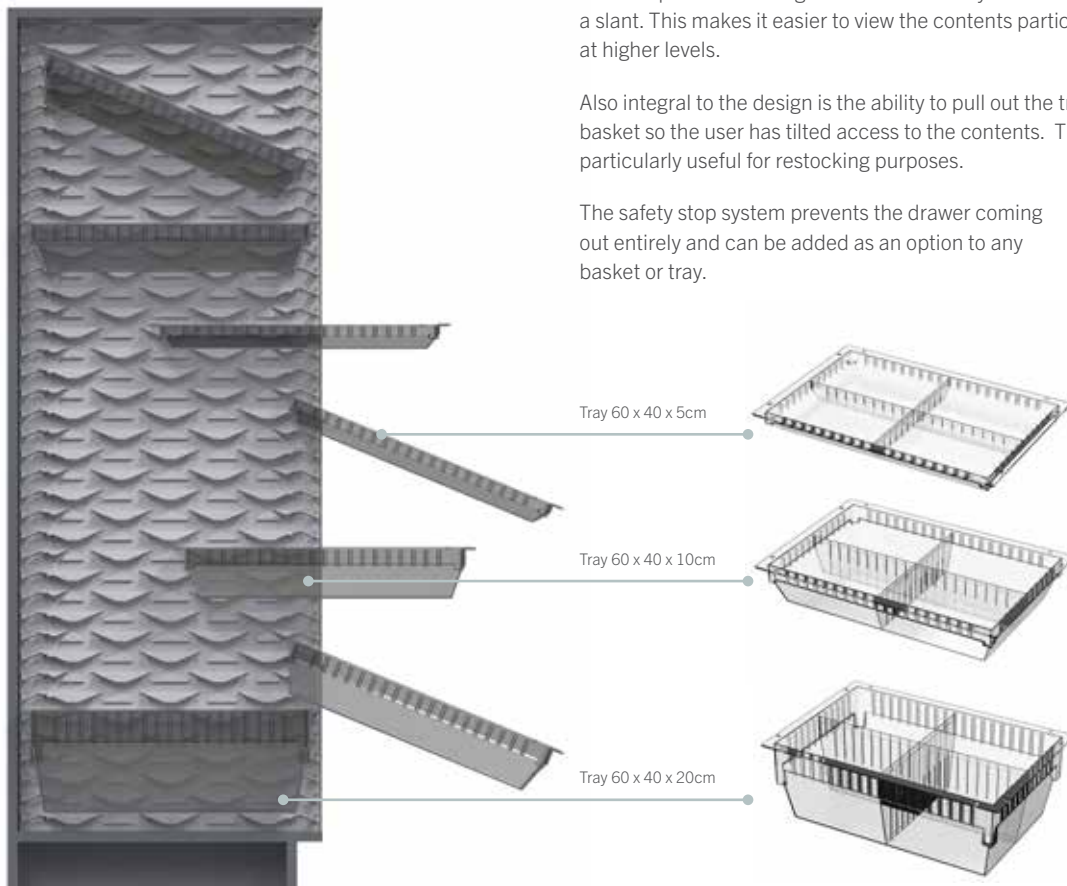

Side View

There are unlimited options for customising the positioning and use of the trays and baskets.

Typically trays and baskets are stored horizontally, however the liner panels are designed to allow the trays to be stored on a slant. This makes it easier to view the contents particularly at higher levels.

Also integral to the design is the ability to pull out the tray or basket so the user has tilted access to the contents. This is particularly useful for restocking purposes.

The safety stop system prevents the drawer coming out entirely and can be added as an option to any basket or tray.

Tray 60 x 40 x 5cm

Tray 60 x 40 x 10cm

Tray 60 x 40 x 20cm

See page 2 for 60 x 40 Trays

Modular Frame Systems

The Module 60 x 40 System can be customised to any room size due to its connecting modular frame system. The Module 60 x 40 frame system allows the trays or baskets to be used for a 40cm or 60cm wide opening. The runner system can also be customised to allow the tray or the basket to slide horizontally or on an angle. This is particularly useful at higher levels to allow better visibility of the stored items.

Cabinet Systems

The Module 60 x 40 cabinet system can be integrated into cabinets of all types, including under bench and full height storage. The cabinet system can be enclosed with sliding or hinged cupboard doors. The Module 60 x 40 cabinet system allows the trays or baskets to be used for 40cm or 60cm wide opening.

Module Liner Systems

All Module liner systems attach easily to the inside of the cabinet and allow the Module 60 x 40 trays and baskets to slide in either horizontally, or on an angle. Module 60 x 40 trays or baskets can also be stored on a slant. This is particularly useful at higher levels as it provides better visibility of the stored items. The addition of the Module Wheels System ensures heavy loaded trays slide easily.

Transport Trolleys/ Open Carts

Open carts are available in various dimensions and can serve as multifunction carts or as transport carts.

The open carts are lightweight, flexible, modular, and easy to move. The carts are easily configurable with various accessories to complement the carts according to use. All product stored in the cart is clearly visible and easily accessible.

The open carts are made from epoxy coated steel tube and are available to suit a 40cm 60cm tray width.

The Module 60 x 40 Trays and baskets fit into the side runners and has an inbuilt safety stop function. The side runners can be installed at 68mm intervals without requiring any tools.

By default, the carts are provided with 4 swivel wheels, 2 of which have a brake. The wheel diameter will vary depending on the cart's dimensions.

The open carts are available in two heights as a single, double, or triple bay and can be fitted with baskets, trays or adjustable shelving.

ISO Container Carts

Container carts are efficient for sterile product transportation. They are made in anodised aluminium and are available in single, double, or triple bay and can be fitted with baskets, trays or adjustable shelving.

The modules are inserted into the module rails of the container cart with the 40cm side as front. The doors open 270 degrees and can be fixed to the cart sides with a magnet, so they do not occupy extra space when opened.

All container carts are surrounded by a bumper on the upper as well as on the bottom side. By default, the container carts have two swivel wheels and two fixed castors. The wheel diameter depends on the dimensions of the container cart.

Modu-Flex

The Modu-Flex provides for an extremely flexible system utilising the Module 60 x 40 tray and basket system. These units are available in 4 standard heights, 90, 105, 150 and 185cm high and can be configured to offer 40cm or 60cm openings. In addition these can be supplied with an open front or with a space saving roller door.

The Modu-Flex liner system is attached inside the cabinet to allow the Module 60 x 40 trays and baskets to slide horizontally or on an angle. This is particularly useful for higher level trays which allows better visibility of the stored items. The addition of the Module Wheels system ensures heavily loaded trays slide easily.

Construction is from lightweight aluminium frame with HPL external panels and heavy duty 125mm castors with brakes.

A full range of accessories is available for the carts,

- Push Handles
- Accessory Rails
- Waste Bag holders
- Bumpers

Spectra Range

The Spectra range is a cart system that combines mobility and drawer flexibility into a lightweight colour coded package that has applications throughout all healthcare environments. The unique drawer system is based on removable 60 x 40 tray systems that offer different depths and the option of integrated drawer dividers. This allows flexibility with the carts applications, particularly in the ability to restock the carts with transfer tray systems.

The carts shelves are one piece moulded polymer which enables easy cleaning and eliminates infection control issues due to the rounded internal mould design, whilst integrating a raised lip to three sides to prevent items falling off.

The Spectra range offers unlimited drawer configurations and a range of colourful drawer fronts.

Features:

- Anti bacterial polymer shelf
- Spectra colour drawer options
- Module 60 x 40 trays or baskets
- 125mm Castors; 2 Brake

Optional:

- Interlocking tray dividers
- Ergonomic push handle

Rapini Shelving Options

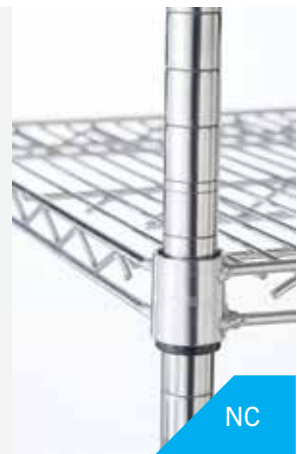

Rapini delivers an easy and economical way to solve a variety of storage, supply management and inventory control issues with Static and Mobile Wire Shelving Systems.

Available in shelving, carts or high density in-line systems the Rapini range will maximise your floor space usage and improve your inventory supply flow.

Shelving Options

Nickel Chrome Wire Shelving

Nickel chrome wire shelving is best suited to dry areas, and in particular for sterile hospital environments, where cleanliness and freedom from dust gathering is critical. Rapini's nickel chrome wire shelves comply with hospital infection control guidelines - as per AS 4187

NC

Stainless Steel Wire Shelving

Stainless steel wire shelving is suitable for wet storage and high contamination areas, such as clean rooms and sterile hospital environments where cleanliness and freedom from dust gathering is critical.

SS

Stainless Steel Solid Shelving

Stainless steel solid shelving has unlimited applications. Stainless steel sheet construction, makes it very serviceable in all conditions.

SD

Cool Seal Wire Shelving

Zinc plated, epoxy coated wire shelving is specially designed for both wet and dry storage areas. Particular application is cool rooms, freezers, hotels, restaurants and hospital kitchens.

Rapini Shelving Options

Rapini shelving, provides complete flexibility, so that our customers can achieve the most efficient storage solutions possible. We offer a no obligation, professional planning consultancy, to assist in optimising storage efficiencies.

We can offer an assembly and installation service if requested.

Shelf sizes

Rapini offers an expansive range of shelf sizes

Adjustability

Shelves are adjustable and can be easily repositioned with the use of the two piece sleeve which is set at 25mm increments.

Different heights

Six standard Post heights enable Rapini to adapt to most requirements.

Accessories

A large range of accessories is available to complement all shelving layouts (refer accessories – over).

Mobile or static - with or without wheels

- Mobile shelving units are supplied with 125mm castors, 2 of which come with brakes.
- Static shelving units are supplied with adjustable feet to accommodate uneven floors.

R1001 | Static 4 Shelf Unit

460 x 1525 x 1600mm (D x W x H)

R1201 | Mobile 4 Shelf

460 x 1525 x 1760mm (D x W x H)

R1101 | Static 5 Shelf

460 x 1525 x 1600mm (D x W x H)

R1301 | Mobile 5 Shelf

460 x 1525 x 1760mm (D x W x H)

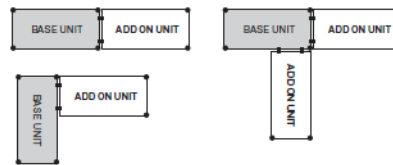

R2001 | Combination Trolley

Size illustrated: 900 x 610 x 1760H mm

This trolley combines the options of fixed shelves and sliding baskets. Can be configured with a variety of baskets to both sides, or the basket / shelf combination. Available in Nickel Chrome only.

Modular Shelving System

Rapini Static units can be configured in multiple variations using S Hooks. Starting with a base unit, extra units can added side to side or back to back.

Please contact our sales department to assist you with your requirements

R2102 | Suture Trolley

Size illustrated: 460 x 1220 x 1760H mm

Suture Trolley features the unique slanted display shelves ideal for dispensing and storing of sutures or other boxed items. Can be configured with slanted or flat shelves. Available in Nickel Chrome only.

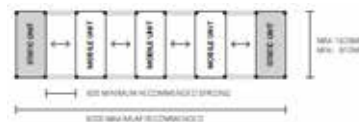

Three shelf sizes available:

- R2101 460 x 910mm
- R2102 460 x 1220mm
- R2103 460 x 1525mm

Single row in-line units

Double row in-line units

In Line Storage System

The principle of in-line storage systems is to have a number of mobile bays, running between two static end bays.

Allowance must be made for a minimum of 800mm aisle spaces. Our normal range of shelf sizes gives the opportunity to erect the most efficient storage system to suit all applications.

Please contact our sales department to assist you with your requirements

Accessories

Ledges

Wire shelf ledges are available to suit all shelf sizes. Ledges are designed to easily clamp onto shelf frames.

Available in various sizes to suit different shelf widths:

- 100mm high
- 280mm high

Catheter Holder

These catheter holders are fully extendable on extension runners and can be easily attached to shelves 460mm or 610mm wide.

RAP18-CATH-SLIDE 460mm

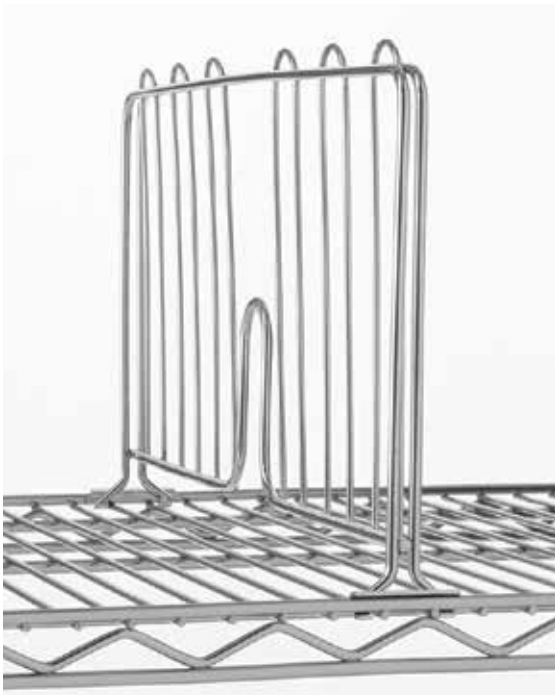

RAP24-CATH-SLIDE 610mm

Shelf Dividers

To assist in organised shelf maintenance, shelf dividers provide a simple solution and clip into any part of the shelf.

Available in various sizes to suit different shelf widths.

RAPCB001

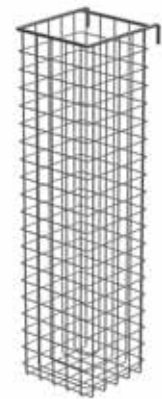

Catheter Storage Basket

Size: 150 x 150 x 600mm

High chrome plated mesh with 2 x attachment hooks

Mesh Size: 30 x 30mm

Fits to all Rapini shelving and basket trolleys

Vertical Rods

An alternative to ledges, the 6mm vertical rods can be used to retain larger items.

Available in five lengths, simply clip onto the shelf frame.

Vertical Rods	Size
AR1150	1150mm
AR1320	1320mm
AR1530	1530mm
AR1830	1830mm

WTIA | Wall Mount Collar

Affixes to wall to accommodate posts and spaced to suit shelves. Posts can be cut to suit any application.

AS 01 | S-Hook Connector

S Hooks are used to link one shelving unit to another and are particularly useful in a corner situation to replace posts to enable free access into the corner.

Wall Brackets

Two sizes:

WSWB14C 355mm wide

WSWB18C 460mm wide

To be fixed to walls and spaced to accommodate all shelves. Fits all 355mm and 460mm wide shelves.

Guard Rails

A small version of the shelf ledge.

Offers two types:
Straight one side or three sided.

Straight 1 Side	Size
R18C	460mm
R21C	533mm
R24C	610mm
R30C	760mm
R36C	910mm
R42C	1070mm
R48C	1220mm
R54C	1372mm
R60C	1525mm
R72C	1828mm

Guard Rail 3 Sides	Size
F1836C	460 x 910mm
F1848C	460 x 1220mm
F2424C	610 x 610mm
F2436C	610 x 910mm
F2448C	610 x 1220mm

Label Holders

Two variations are available:

Blue Type: Clips securely to top and bottom of shelf. Available in full lengths to suit shelves.

Blue	Size
ALH07	75mm
ALH8	828mm
ALH14	1400mm
ALH12	1220mm
ALH17	1700mm

Clear Type: Clips securely to top of shelf. Available in full lengths to suit shelves. May be easily cut to lengths of choice.

Clear	Size
DUS26CL75	75mm
DUS26CL700	700mm
DUS26CL1220	1220mm
DUS26CL1400	1400mm
DUS26CL1700	1700mm

Rapini Wall Hanging Systems

Wire Panels

This new method of storage for the Rapini Wall Basket system introduces a wire retaining system fully compatible for our range of close mesh baskets.

This unique system addresses infection control issues with the ability to clean and dust behind the wall panel system.

This system is modular, size 460mm (high) x 460mm (wide) and can be attached to the wall side by side or above each other. Manufactured from nickel chrome plated wire, this system is durable and easy to install.

- 460mm x 460mm

Rapini Wall Basket Systems

Storage Solutions – Clean Environment

Rapini have introduced a new basket system which features a close mesh design. It has applications for wall mounting on louvered panels and wall hanging systems.

These baskets offer a much improved alternative to the plastic storage trays and significantly reduce the opportunity of dust collection, thereby addressing infection control.

- Eliminates collection of dust on the base of the basket
- Close mesh design allows storage of smaller items
- Light weight and extremely robust
- Four sizes to choose from which provides storage solutions for any applications
- Dividers available for the two larger size baskets
- The nickel chrome plated wire construction ensures strength and durability and are easily cleaned and maintained.

Rapini Wire Storage

The Rapini Basket Trolley range, delivers great versatility in slide out basket storage. Trolley units can be configured to suit our customer's requirements.

Trolleys are manufactured with heavy duty bearing drawer runners to withstand normal handling abuse

Baskets come in a number of sizes and are available in either 100mm or 200mm depths. Baskets are offered with a range of dividers.

- Available in Nickel Chrome Plated Steel
- Various drawer configurations are available.

Static Basket Systems

Due to the flexibility of the SB range of baskets they can be integrated into trolleys, static units and In-Line systems. The baskets are only suitable to shelf widths of 460, 525, or 610mm.

Mounted on full extension heavy duty metal runners, the SB baskets are well suited to all types of items including IV fluids or similar.

Configuration options
