

Negus Aspirating Dissector

Product Specification

The Design Checklist

- One Hole variant for reduced suction in procedures
- Optimum blade sharpness for precision work
- Removes risk from very difficult to clean suction blades
- Enlarged hole size increases the rear aperture size
- 20% improved suction flow
- Commonly used in Nasal Surgery to dissect and push back the Nasal Mucosa

DT-NDS0511- 2.25mm
hole diameter

DT-NDS0521- 2.25mm
hole diameter

Code	Pack size	Description
DT-NDS0511	5 units	Negus Aspirating Dissector with One Hole
DT-NDS0521	5 units	Negus Aspirating Dissector with Two Holes
